Dear Applicant,

Thank you for your application to Estonian national summer school scholarship 2025.

Estonian Education and Youth Board received over 500 summer school scholarship applications of which 182 were eligible for evaluation. The 182 applications were set in a ranking order by the scholarship committee and 17 applications with the highest number of points receive funding for the summer school (course fee up to 700 euros and accommodation during the course 25 euros per night – including the night before the start of the course and the night following the final day).

**We are pleased to announce that your summer school scholarship application (Tallinn University: Estonian Language) was successful.** Please contact [tss@tlu.ee](mailto:tss@tlu.ee) for further information.

The Board concludes a contract and makes the transfer directly to the university organizing the course. The Estonian university organizing the summer school offers accommodation or makes the scholarship payment to the student.

With kind regards

**Tiiu Tuisk**
